

Take the Guesswork Out of WiFi Setup - **FREE**

Predict and optimize network performance with ZonePlanner

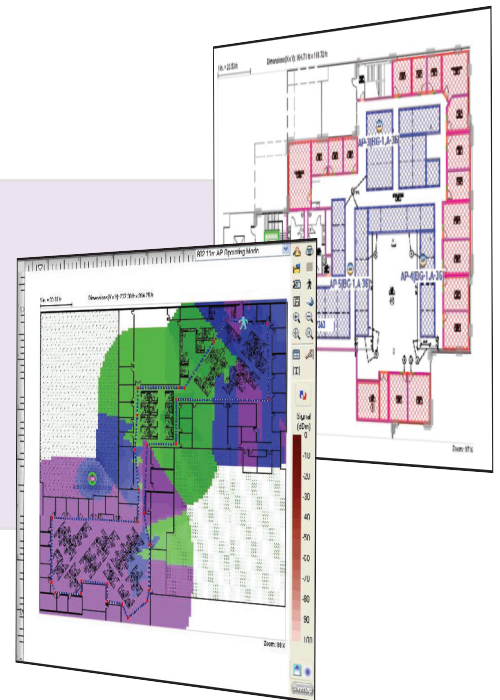

Learn

-  The number of access points you will need
 -  Where to place your APs
 -  How to configure your APs
- Before hardware setup**

Firewalls.com & Securematics are partnering to offer a ZonePlanner Report (a \$495 value) FREE to help you choose the best Ruckus Wireless products for your network

How it works

- Send us a map or illustration of your location
- Note walls, doors, cubicles, and other physical details
- Receive your professional report generated by ZonePlanner including coverage maps & more
- Install your industry leading Ruckus WiFi Access Points
